Status: 11/13/2026

Devantol Soft

Brushing agent

F P

SENSENE™

Properties

- gentle on dyeing and printing on sensitive fabrics
- effectively removes pigment dirt, food and protein stains
- prevents local graying and can be rinsed out in all commercially available solvents without leaving edges
- particularly suitable for brushing delicate textiles

Application

Devantol Soft is not miscible with water. For delicate garments made of silk, acetate and viscose, a hem test should precede the general treatment.
Brush or spray undiluted Devantol Soft onto delicate garments without applying strong mechanical pressure. Place the treated garments in the dry-cleaning machine after a maximum of 10 minutes.

Technical data

Density (20°C)	pH-value
0,84 kg / l	7,5

Notes

Only store the product in its original container and in a frost-free place.
The product is not sensitive to frost, but becomes viscous if stored below 10 °C for longer periods. However, it can be used again after warming up without any loss of quality.

For commercial use only. This leaflet is for non-binding information only. The information is based on our current knowledge and experience. In any case, the user is obliged to carry out his own tests and trials to check the suitability of the products for his intended processes and purposes. The information in this leaflet does not constitute a guarantee for the quality and durability of the goods to be supplied by us. We reserve the right to make technical changes within the scope of what is reasonable. The current version of the corresponding EU safety data sheet must also be observed.
