

BÜFA Element D2

Disinfectant concentrate

Properties

- effective as as disinfectant even at low temperatures
- chlorine-free
- protects fibers and colors
- part of disinfection washing process

Listings

IHO listed

Application

BÜFA Element D2 can be used both as a laundry disinfectant for chemo-thermal disinfection. The product is highly effective and improves the whiteness of the treated textiles. BÜFA Element D2 can be added manually or via typical laundry liquid dosing systems. When using dosing systems, the hose lines must be rinsed regularly!

Attention:

Before applying BÜFA Element D2 directly to delicate clothing and textiles with low color fastness, we recommend testing it on a small, inconspicuous area first.

Only use stainless steel or plastic containers.

Direct contact between BÜFA Element D2 and zippers, buttons, and/or metal threads may cause discoloration.

Technical data

Density (20°C)	pH-value
1,05 kg / l	3,5

Biocide

Use biocide products with care. Always read the label and product information before use.

Notified according to national legislation for biocides under No. N-114579.
100g product contains 17,2g 6-(Phthalimid)peroxyhexansäure (PAP)

Maximum usability from manufacture: 36 months in the closed original container.

BÜFA Element D2 is part of a 40°C disinfectant washing process and IHO listed:

- 0.6 ml/l BÜFA Element ALB
- 0.4 ml/l Lizerna Conc or BÜFA Element O
- 3 ml/l Lizerna MegaOx
- 1 ml/l BÜFA Element D2

10 min contact time, liquor ratio 1:4

Bactericidal, yeasticidal, mycobacterial, tuberculocidal

A liquor ratio of 1:5 applies exclusively to the fungicidal effect with identical application quantities.

BÜFA Element D2 is part of a 60°C disinfectant washing process:

5 min contact time at the pre-wash without draining the liquor:

- 0.4 ml/l BÜFA Element ALB
- 0.4 ml/l Lizerna Conc or BÜFA Element O

10 min contact time at the main wash

- 1.0 ml/l Lizerna MegaOx
- 0.25 ml/l BÜFA Element D2

liquor ratio 1:4

Bactericidal, yeasticidal, fungicidal & mycobacterial

Notes

Store the product only in its original container.

The product must not be stored at temperatures below 0°C or above 40°C.

Close the container again after removing partial quantities.
