

Petrosol SBR

Basic swimming pool cleaner

Properties

- very powerful
- hygienically effective
- RK-listed
- can be used on acid-resistant surfaces

Application

Petrosol SBR is a cleaning concentrate based on hydrochloric acid. The targeted mixing of active cleaning substances with acid achieves powerful and hygienic cleaning of stubborn dirt. Petrosol SBR is particularly suitable for the basic cleaning of swimming pools in outdoor and indoor pools. Petrosol SBR also achieves very good cleaning results in the daily maintenance cleaning of overflow channels. Petrosol SBR quickly and safely removes mineral deposits, limescale, rust stains, algae and many organic stains. Marble, enamel, polyamide and other acid-sensitive materials must not be treated with Petrosol SBR! If in doubt, check material compatibility beforehand! Petrosol SBR is included in the list of approved cleaning agents for ceramic surfaces in swimming pools (RK list). Thoroughly pre-wet the surfaces with water before cleaning.

Dosing

Maintenance cleaning

Concentration	500 ml - 1 l / 10 l water
---------------	---------------------------

Basic cleaning

Concentration	2 l / 10 l water
---------------	------------------

Exposure time	5 - 10 min.
---------------	-------------

Addition	Brush in briefly, rinse thoroughly after exposure time
----------	--

Technical data

Density (20°C)	pH-value
1,07 kg / l	1 - 2 ; 1 %
