Spülglanz

Detergent concentrate and neutral detergent

Properties

- pH-neutral
- universally applicable
- good grease dissolving power
- productive

Application

Spülglanz is a pH-neutral detergent concentrate that enables fast and particularly gentle cleaning. The mixture of fast-wetting and emulsifying surfactants gives Spülglanz outstanding grease dissolving properties. Spülglanz can be used in all areas for basic and maintenance cleaning of damp wipeable surfaces. Spülglanz is ideal for cleaning dishes quickly and gently.
Spülglanz can be used with cold water. However, the use of warm water significantly improves the cleaning result. A few splashes are sufficient for dishwashing. When used in food processing companies, rinse with fresh water after the Spülganz treatment to remove product residues from the cleaned surfaces.

Dosing

Basic cleaning	
Concentration	1,0 - 2,0 % aqueous solution

Maintenance cleaning	
Concentration	0,1 - 1,0 % aqueous solution

Technical data

Density (20°C)	pH-value
1,02 kg / l	5,5 - 7,5

Notes

Storage:
Store the product only in the original container and frost-free.
Direct sunlight should be avoided.
After removing partial quantities, the container should be resealed.
