

SolventClean 50

High-boiling solvent cleaner

Properties

- Particularly suitable for removing pigment powders
- distillable
- Flash point according to DIN EN 22719-A: $\geq 77^{\circ}\text{C}$

Application

SolventClean 50 is a high-boiling solvent cleaner for direct use in manual cleaning or immersion applications. SolventClean 50 is low foaming and designed for the removal of pigment powders. The cleaner dries quickly and residue-free.

Instructions for use:

Increased residual adhesion of SolventClean 50 can be removed by rubbing with cotton or fleece cloths. Rinsing with water is also possible if the application permits.

Suitable surfaces: Steel, stainless steel, aluminium, aluminium alloys, galvanized material, non-ferrous metals

Only treat after testing: Plastics

Area of application: manual process and immersion process

For removing: primarily pigment powders
