Oldopal Quick

Grease-dissolving brushing agent

Properties

- extremely effective for all grease stains
- high pigment dirt carrying capacity
- particularly suitable for removing collar dirt

Application

Oldopal Quick is a powerful, highly concentrated dirt-removing agent that is ideal for pre-brushing or spraying on. It has proved particularly effective for treating collar dirt. It also has excellent dissolving power for treating large grease stains (e.g. restaurant and hotel tablecloths). Due to its highly concentrated formulation, Oldopal Quick should only be used on colour-fast items.

Please carry out a hem test on delicate dyes.

Oldopal Quick can also be used for large-scale applications with a sprayer (e.g. for grease-soiled returns of laundry). In this case the product is diluted 1:3 with water and distributed onto the soiling with a spraying device. After a contact time of 10 - 20 min, normal washing is carried out.

Dosing

Brushing on collars and spot-removal of stains	
Concentration	1:1 bis 1:4 %
Exposure time	10 - 20 min.

Spray cleaning of carpets	
Concentration	1:10 %
Exposure time	10 min.
Addition	followed by the main cleaning process

Technical data

Density (20°C)	pH-value
1,02 kg / l	8,6

Notes

Store the product in a frost-free location. Although the products may solidify, they can be used again after thawing without any loss of quality.
