Orbin Evolve Forte

Ecological, highly alkaline foam cleaner

Properties

- based on 100 % renewable active ingredients
- distinct fat and protein dissolving power
- short exposure time
- powerful and economical in consumption

Application

Orbin Evolve Forte is a highly alkaline foam cleaner for removing grease and protein from all alkali-compatible surfaces. Based on a mixture of active ingredients made exclusively from natural, renewable raw materials, it achieves very good cleaning results. Soiling is emulsified within a relatively short reaction time of up to 10 minutes and can then be easily rinsed off. Orbin Evolve Forte preserves the original shine of cleaned surfaces and makes the use of acidic cleaners or stainless steel care oils unnecessary or reduces them to a minimum. Orbin Evolve Forte has been developed for cleaning in the food and beverage industry, e.g. for use on walls, processing machines, containers, equipment, tanks, floors and work surfaces. Orbin Evolve Forte also removes grease and protein residues quickly and reliably in commercial kitchens. It can be used as a foam cleaner as well as in the luxury food industry, e.g. for use on walls, processing machines, containers, equipment, tanks, floors and work surfaces. Orbin Evolve also removes grease and protein residues quickly and reliably in commercial kitchens. It can be used both as a foam cleaner and for manual cleaning and develops excellent cleaning power. Using a suitable foaming system, a stable, well-adhering foam is achieved with an air outlet pressure of 4 to 6 bar.

Procedure Foam cleaning:
1. Coarse dirt removal
2. Pre-rinsing with water
3. Lather the surface to be cleaned with the specified contact time
4. Rinse with water of drinking water quality

Manual cleaning procedure:
1. Apply cleaning solution to the surface with a sprayer, sponge or brush; if possible, massage in gently
2. After the exposure time, rinse with sufficient clear water of drinking water quality

Dosing

Foam cleaning	
Concentration	1,0 - 3,0 %
Temperature	20 - 50 °C
Exposure time	5 - 10 min.
Addition	After cleaning with Orbin Evolve Forte, rinse with drinking water quality.

Manual cleaning	
Concentration	0,5 - 2,0 %
Temperature	20 - 40 °C
Exposure time	5 - 10 min.
Addition	After cleaning with Orbin Evolve Forte, rinse with drinking water quality.

Technical data

Density (20°C)	pH-value
1,25 kg / l	12,5 ; 1 %

Titration

Prepare 10 ml application solution and titrate with 0.1 N hydrochloric acid against the indicator phenolphthalein.

Consumption (ml) x 0.26 = concentration in %

Notes

Storage:
Store the product only in the original container and in a frost-free place between +5 and +40°C. Avoid direct sunlight. After removing partial amounts, please reseal the container tightly.
Due to the natural ingredients used, a visible dark cloudiness may occur in the lower part of the container. This cloudiness does not affect the product's cleaning performance.

This product is halal certified.
The certification was carried out with reference to the standards "BPJPH Decree No. 20 2023" and "OIC/SMIIC 50-1:2022" in product category K for the production, filling, storage and distribution of cleaning agents and disinfectants.
