

Lizerna WS

Strength

Properties

- Can be used for all fiber types
- achieves a slightly shiny fiber surface
- Also suitable for colored fabrics
- good pumpability

Application

Lizerna WS is a stabilized, liquid natural starch. Thanks to selected dispersing agents, it does not settle and therefore remains pumpable. Lizerna WS is easy to rinse in and spreads quickly and evenly over the fabric. This fine distribution also prevents the otherwise typical cloud formation on colored fabrics.

The dosage depends on the desired stiffness and fabric:

Table linen 12 - 15 ml / kg dry laundry

Gowns 8 - 10 ml / kg dry laundry

Shirts 5 - 8 ml / kg dry laundry

Technical data

Density (20°C)	pH-value
1,14 kg / l	6,5 ; 10 %

Notes

Store the product only in the original container and frost-free.
After removing partial quantities, the container should be resealed.
