Lizerna WS

Starch

Properties

- can be used for all fiber types
- achieves a slightly shiny fiber surface
- also suitable for colored fabrics
- easily pumpable

Application

Lizerna WS is a stabilized liquid natural starch. Due to the selected dispersing agents it does not settle and therefore remains pumpable. Lizerna WS can be easily introduced into the washing liquor and is quickly and evenly distributed on the fabric. This fine distribution also prevents the typical clouding on colored fabrics.

The dosage depends on the desired stiffness and fabric:
Table linen 12 - 15 ml / kg dry linen
Coats 8 - 10 ml / kg dry linen
Shirts 5 - 8 ml / kg dry linen

Technical data

Density (20°C)	pH-value
1,14 kg / l	5 - 8

Notes

Store the product only in its original container and protect it from frost.
After removing partial quantities, the container should be closed again.
