

Lizerna Conditioner

Finishing agents for textiles

Properties

- gives a hard, firm handle
- can be used for colored textiles without any problems
- Should not be used at temperatures above 175°C when mangling or pressing
- Must be stirred well before use

Application

Lizerna Conditioner is added in the last rinsing bath at a low liquor ratio and a reduced extraction speed.

Lizerna Conditioner can be used for coloured textiles without any problems as it does not affect the colours. Lizerna Conditioner should not be used at temperatures of the pressing and mangling process of more than 175°C as this may lead to blocking.

The product tends to separate. Lizerna Conditioner has to be stirred well before use.

Dosing

Finishing

Concentration

5 - 15 ml / l liquor

Addition

As an additive to the last rinse bath

Technical data

Density (20°C)	pH-value
1,05 kg / l	5,75 ; 1 %

Notes

Store the product in its original, well-closed container to prevent a skin from forming.

Storage should be frost-free, although solidified product can be reused after thawing and thorough mixing.
