

Orbin RT-P

Alkaline foam cleaner with active chlorine

Properties

- Economical in consumption
- Bleaching and cleaning enhanced by active chlorine
- preserves shiny stainless steel surfaces
- Dissolves grease and protein soiling

Application

Orbin RT-P is a chlor-alkaline foam cleaner with high cleaning power. Soiling from grease, protein and starch is removed quickly and reliably. Orbin RT-P has been developed for cleaning in food processing companies such as the meat, fish and delicatessen Alternating with alkaline cleaning, we recommend changing to an acidic foam cleaner after every third to fourth cleaning.

Technical data

Density (20°C)	pH-value	Conductance (1%; 25°C)
1,15	12,0 - 13,0 ; 1 %	4,9; 1% mS/cm

Titration

Prepare 10 ml application solution and destroy the chlorine by adding a spatula tip of sodium thiosulphate. Titrate with 0.1 N hydrochloric acid against the indicator phenolphthalein.

Consumption (ml) x 0.59 = concentration in %

Notes

Store the product only in the original container and frost-free.
Direct sunlight should be avoided.
After removing partial quantities, the container should be resealed.
