

Sept E

Chlorine bleach

Properties

- reduced chlorine, thus less polluting to waste water
- for stain removal and intensive bleaching
- can be used cold and warm in the prewash or as an intermediate bleaching agent
- for all washing machines and degrees of hardness

Application

Wash out the excess chlorine with an appropriate agent (e.g. with an oxygen-containing heavy-duty detergent). Dose sole or pre-wash agents without oxygen bleach for the appropriate wash cycle.

Do not use Sept E together with acids or acidic products.

Dosing

Bleaching agent

Concentration	5 - 6 g / kg dry laundry
Temperature	60 °C
Exposure time	10 min.
Addition	For all washing machines and hardness levels

stain removal and intensive bleaching

Concentration	10 g / kg dry laundry
Temperature	60 °C
Exposure time	30 min.
Addition	Wash out excess chlorine in the main wash cycle

Technical data

pH-value	Bulk weight
8,5 ; 1 %	approx. 1000 kg / m ³

Notes

Store the product only in its original container and protected from frost.
After partial quantities have been removed, the container should be closed again.
