

Quick Fresh RTU

Ready-to-use, universal surface cleaner

Properties

- no dilution necessary, ready-to-use solution
- spreads a pleasant fragrance
- Fast-acting
- Short drying times, with streak-free results

Application

Quick Fresh RTU is a ready-to-use, mild and gentle cleaner for universal use in many areas. It can be used for everything from cleaning buildings (offices, social rooms, etc.) to cleaning vehicle interiors (streetcars, buses, trucks, cars, etc.).

Quick Fresh RTU is free of aggressive ingredients and can therefore be used on almost all water-resistant surfaces. If the color fastness of chair and seat covers is given, even upholstery cleaning using the spray extraction method is possible. Very short drying times of approx. one hour can be achieved.

Quick Fresh RTU is sprayed directly onto the surface or applied with a cleaning cloth, sponge, brush or scrubbing brush. The surface is wiped after approx. 5 minutes. For heavily soiled surfaces, we recommend wiping with clear water after cleaning.

Technical data

Density (20°C)	pH-value
1,00 kg / l	10,0

Notes

Storage:

Store the product only in the original container and in a frost-free place.

Direct sunlight should be avoided.

The container should be resealed after partial use.

Further information:

The surfactants contained in the product meet the biodegradability requirements as laid down in Regulation EC 648/2004 for detergents.

The product does not contain any insufficiently biodegradable organic complexing agents such as EDTA (according to Annex 49 of the Waste Water Ordinance).

Due to the formulation ingredients used, no organically bound halogen compounds (AOX) are included as active substances.
