Status: 11/14/2026

EW Aktiv

pH-neutral defoamer

Properties

- highly effective
- pH-neutral product
- suitable for cleaning processes with intensive mechanics
- can be used in both cold and hot temperatures

Application

EW Aktiv is a pH-neutral active ingredient concentrate with strong anti-foaming properties. EW Aktiv can be used for hot and cold solutions. EW Aktiv can be used as a foam inhibitor in alkaline and acidic media. EW Aktiv is particularly suitable for use in cleaning processes with intensive mechanical action. EW Aktiv can be added both manually and via automatic dosing systems. EW Aktiv is particularly suitable for foam control in brewing baths, crate washers and other highly turbulent systems in the food industry.

After treatment with EW Aktiv, rinse with fresh water when used in food processing plants to remove all product residues from the cleaned surface.

Dosing

Defoaming	
Concentration	50 - 100 ml / m³ cleaning solution
Temperature	10 - 80 °C
Exposure time	gemäß Maschinentakt

Technical data

Density (20°C)	pH-value
1,00 kg / l	8,3

Notes

Storage:
Store the product only in the original container and in a frost-free place between +5 and +40°C. Avoid direct sunlight. After removing partial quantities, please reseal the container tightly.
