

Foam-Ex

Silicone-based defoamer

Properties

- Neutral product
- Prevents foam formation in the long term
- Highly concentrated, therefore can be dosed sparingly
- for aqueous systems

Application

Foam-Ex is a special silicone-based emulsion that is primarily used in spray extraction or when extracting foam after shampooing. Foam Ex prevents increased foaming in the dirt tank, which is suppressed for a long time.

Dosing

Defoaming carpet spray extraction

Concentration	20 - 50 ml
Addition	Add to the collection container

Technical data

Density (20°C)	pH-value
1,00	7,5

Notes

Store the product only in the original container and frost-free, although the solidified products can be used again after thawing without loss of quality.
After removing partial quantities, the container should be resealed.
