

Petrosol Pulver

Descaling concentrate

Properties

- Versatile application
- Gentle on materials
- easy to use

Application

Petrosol powder is a highly concentrated product for removing scale and mineral deposits from acid-resistant surfaces. Due to its comparatively good material compatibility and its uncomplicated handling, the product has a very wide range of applications. After using Petrosol powder, it is essential to rinse with fresh water until pH neutral. If necessary, neutralize excess solution before disposal (e.g. with soda solution).

Technical data

pH-value
1,5 ; 1 %

Notes

Store the product only in the original container and frost-free.
Direct sunlight should be avoided.
After removing partial quantities, the container should be resealed.
