

# Lizerna Synergy

## Bleach-containing laundry booster

### Properties

- new, chlorine-free, liquid oxygen bleach
- removes stains excellently while protecting fibers and colors
- removes odors efficiently through oxidative processes in the kitchen and nursing home area
- makes a 2-bath process largely obsolete (significant water and energy savings)

### Application

Lizerna Synergy can be combined with all BÜFA washing agents and is characterized by a high degree of effectiveness. Another significant feature is the improved whiteness of the textiles treated with Lizerna Synergy.

Lizerna Synergy can be added manually or via liquid dosing systems typical for laundries. When using dosing systems, the hose lines must be rinsed regularly!

The amount added and the treatment time depend on the degree of soiling.

Lizerna Synergy can also be used as an emulsifier for heavily pigment-soiled laundry:  
15 - 20 ml / kg dry textiles, treatment temperature 30 - 50 °C

Soaking: 10 ml / kg textiles; approx. 30 - 40 °C, also over night (2 - 12 hours)

#### Attention!

- Before the direct application of Lizerna Synergy on delicate garments and textiles with low colour fastness we recommend a test on a small area. Only use stainless steel or plastic containers.
- Direct contact of Lizerna Synergy with zi

### Dosing

#### Laundry booster

Concentration	5 - 10 ml / kg dry wash
Temperature	30 - 40 °C

#### Enhancement of the bleaching effect

Concentration	10 - 20 ml / kg dry wash
Temperature	40 - 50 °C

### Technical data

Density (20°C)	pH-value
1,05 kg / l	3,5

### Notes

Store the product only in its original container.

The product must not be stored at temperatures below 0°C and above 40°C. After partial taking out close the container again.

Lizerna Synergy must not have direct contact with other chemicals and base metals. Transfer Lizerna Synergy only into clean, new plastic containers which are provided with a venting device the arrangement of which excludes the penetration of contaminations. When transferring use only clean equipment and containers without rubber parts.
