

Devantol Soft

Brushing agent

Properties

- gentle on dyeing and printing on sensitive fabrics
- effectively removes pigment dirt, food and protein stains
- prevents local graying and can be rinsed out in all commercially available solvents without leaving edges
- particularly suitable for brushing delicate textiles

SENSENE™

Application

Devantol Soft is not miscible with water. For delicate garments made of silk, acetate and viscose, a hem test should precede the general treatment.

Brush or spray undiluted Devantol Soft onto delicate garments without applying strong mechanical pressure. Place the treated garments in the dry-cleaning machine after a maximum of 10 minutes.

Technical data

Density (20°C)	pH-value
0,84 kg / l	7,5

Notes

Only store the product in its original container and in a frost-free place.

The product is not sensitive to frost, but becomes viscous if stored below 10 °C for longer periods.

However, it can be used again after warming up without any loss of quality.
