

Petrosol Citro

Mild sanitary cleaner

Properties

- powerful
- gentle cleaning
- based on fruit acid
- can be used on acid-resistant surfaces

Application

Petrosol Citro is a gentle sanitary cleaner based on fruit acids. It develops a strong cleaning power on acid-resistant surfaces without aggressive mineral acids endangering the materials. By dispensing with phosphoric acid, the waste water is relieved. Petrosol Citro dries stain-free and has a pleasant and deodorizing fragrance. Petrosol Citro removes limescale and adhering dirt from ceramics, porcelain, stoneware, chrome, stainless steel and glass. Petrosol Citro is used for cleaning e.g. tiles, toilet bowls, urinals, washbasins, taps, mirrors, toilet and shower cubicles. Parts made of polyamide (e.g. toilet seats and lids, towel rails, door handles and fittings), marble and enamel must not be cleaned with Petrosol Citro.

Tiled surfaces should be pre-watered sufficiently to prevent damage to the joint material.

Dosing

Maintenance cleaning

Concentration 25 - 30 ml / 10 l water

Technical data

Density (20°C)	pH-value
1,05 kg / l	2,5 ; 1 %
