

BÜFA-Clean Brillant

Alkaline intensive cleaner with re-shine effect

Properties

- Highly effective intensive cleaner especially for large vehicles
- Removes even stubborn dirt gently
- Particularly high reflective effect

Application

BÜFA-Clean Brillant can be used as an intensive cleaner with all common high pressure/HW devices and is suitable for use in automatic truck washes. It can be used on all types of commercial vehicles (trucks, cars, construction machinery, etc.) with a part. Do not treat hot surfaces with BÜFA-Clean Brillant. The product must not be allowed to dry on sensitive and painted surfaces in particular. Sensitive paintwork may be attacked. When using the product for the first time, carry out a test application on a concealed area to check the compatibility of the material.

Pre-spraying method: 1:5 to 1:20 diluted with water

Washing systems: depending on the system

HD/HW devices: 0.1 - 1.0 % (at the nozzle)

Manual cleaning: 1:10 to 1:200 diluted with water

Technical data

Density (20°C)	pH-value
1,06	11,0 - 12,0 ; 1 %

Notes

Only store the product in the original container and in a frost-free place.

Direct sunlight should be avoided.

After removing partial quantities, the container should be resealed.

The surfactants contained in the product meet the conditions regarding biodegradability as specified in Regulation EC 648/2004 for detergents.

The product does not contain any organic complexing agents that are not sufficiently biodegradable, e.g. EDTA (according to Annex 49 of the Waste Water Ordinance).

Due to the formulation components used, no organically bound halogen compounds (AOX) are contained as active substances.
