

# Oldomat 2022

## Machine dishwashing detergent

### Properties

- containing chlorine
- containing phosphate
- alkaline
- with material protection

### Application

Oldomat 2022 is a liquid, non-foaming cleaning concentrate for commercial use in commercial kitchens and other food processing companies. Excellent cleaning results are achieved even with very hard water. Dishes made of porcelain, plastic, stainless steel

### Dosing

#### Dishwashers

|          |  |
|----------|--|
| Addition | depending on water quality and degree of contamination |
|----------|--|

#### Continuous flow systems for food processing

|               |             |
|---------------|-------------|
| Concentration | 0,5 - 1,0 % |
|---------------|-------------|

### Technical data

| Density (20°C) | pH-value   | Conductance (1%; 25°C) |
|----------------|------------|------------------------|
| 1,18           | 12,0 ; 1 % | 5,1 (1%, 25°C) mS/cm   |

### Titration

Prepare 10 ml of working solution and destroy the chlorine by adding a spatula tip of sodium thiosulphate. Titrate with 0.1 N hydrochloric acid against the indicator phenolphthalein. Consumption (ml) x 0.63 = concentration in %

### Notes

Store the product only in the original container and frost-free.  
 Direct sunlight should be avoided.  
 After removing partial quantities, the container should be resealed.
