

Selekta WT 1000

Neutral universal cleaner concentrate

Properties

- For cleaning and care of all surfaces that can be wiped with a damp cloth
- Suitable for carpet and upholstery cleaning using a spray extraction device
- Can be used with all common HD/HW devices
- for brush washing systems and manual applications

Application

Selekta WT 1000 can be mixed with water in any ratio. Application concentrations depend on the type and degree of soiling of the surfaces to be cleaned. If pre-dilution is necessary, follow the instructions of the appliance manufacturer. After cleaning, rinse thoroughly with clean water to remove all detergent residues and loosened dirt. When using for the first time, carry out a test application in a concealed area to check the compatibility of the material.

The product can also be used with HD/HW devices at an application concentrate of 0.15 - 1.0 % (at the nozzle).

Dosing

Basic cleaning, manual cleaning, spray extraction devices

Concentration	1:10 bis 1:50 in proportion with water
---------------	--

Technical data

Density (20°C)	pH-value
1,05 kg / l	9,5 ; 1 %

Notes

Only store the product in the original container and in a frost-free place.

Direct sunlight should be avoided.

After removing partial quantities, the container should be resealed.

The surfactants contained in the product meet the conditions regarding biodegradability as specified in Regulation EC 648/2004 for detergents.

The product does not contain any organic complexing agents that are not sufficiently biodegradable, e.g. EDTA (according to Annex 49 of the Waste Water Ordinance).

Due to the formulation components used, no organically bound halogen compounds (AOX) are contained as active substances.
