Tolo Tube Cleaner

Enzymatic pipe cleaner

Properties

- mild degradation of soiling such as proteins and fats
- the enzyme combination dissolves natural and old fats and food residues well
- low pH value
- can be used with all bleaching agents

Application

Drain, gully, pipe and trap cleaning with just one product. The cleaning is carried out after the complete floor cleaning for final treatment. Do not carry out any more cleaning work after the treatment or allow large quantities of water to drain through the drainage system.
Advantages of enzymatic pipe cleaners:
. No corrosive ingredients
- Can be used with all cleaning agents
- Superior degradation of organic residues in drains, pipes and traps ensures grease-free piping systems
- No damage to pipes and grease traps
- Prevention of bad odors

Dosage: 100 - 500 ml depending on location and drain size.

Exemplary application scenario: 500 ml of pipe cleaner is dissolved in 8 liters of lukewarm water and flushed into the drain/pipe system to treat and break down soiling such as grease etc.
After treatment, do not run large quantities of water through the drainage system so as not to disturb the enzyme activity during the biodegradation of the grease.

Technical data

Density (20°C)	pH-value
1,04 kg / l	8,00 - 9,00

Notes

Storage:
Store the product only in the original container and in a frost-free place between +5 and +40°C. Avoid direct sunlight. Please reseal the container tightly after removing partial quantities.

This product is halal certified.
The certification was carried out with reference to the standards "BPJPH Decree No. 20 2023" and "OIC/SMIIC 50-1:2022" in product category K for the production, filling, storage and distribution of cleaning agents and disinfectants.
