# InkClean 1010

## Mildly alkaline, water based cleaner concentrate

### Properties

- Powerful cleaner for UV and water-based ink systems
- Low-emission, non-flammable in the application concentration
- Also suitable for removing adhesives
- Suitable for cliché cleaning and ultrasonic cleaning

### Application

InkClean 1010 is a mildly alkaline, aqueous cleaning concentrate for the production of aqueous washing baths for manual and machine cleaning. InkClean 1010 effortlessly removes ink residues from clichés/printing plates, anilox rollers and ink containers. It is also suitable for cleaning in ultrasonic baths. Slight foaming can be observed at room temperature, but does not interfere with the cleaning process. In the printing industry, the concentrate can be used for all cleaning purposes if diluted correctly.

Instructions for use:
Test on an inconspicuous area first.

Suitable surfaces: all cliché materials and for surfaces made of ceramic, steel, stainless steel
Only treat after testing: Non-ferrous metals and plastics
Area of application: Cliché cleaning machine, manual cleaning, ultrasonic baths
For removing: UV inks, water-based inks; fingerprints and adhesive residues.

### Dosing

| **Manual cleaning** | |
|---|---|
| Concentration | 25-75% |
| Temperature | 20-30 °C |

### Technical data

| Density (20°C) | pH-value |
|---|---|
| 1,03 kg / l | 13,5 |

### Notes

Store the product in its original container.
Storage should be frost-proof, although the solidified products can be used again after thawing without any loss of quality.
