

# Lizerna Sept

Liquid disinfecting concentrate

## Properties

- hygienically effective even at low temperatures
- ideal additive for pre- and sole detergents for stain removal
- can be used in all machines

## Listings

IHO listed  
RKI listed  
VAH listed

## Application

Lizerna Sept can be used both as a laundry disinfectant for chemo-thermal disinfection in accordance with §18 IfSG (German Infection Protection Act).

The product Lizerna Sept is also suitable for use in disinfecting the washing liquor and the rinsing bath. The biocidal effectiveness must be checked by on-site tests. The textiles washed with Lizerna Sept & Ozerna Polar were tested for their dermatological compatibility in accordance with the cytotoxicity test DIN EN ISO 10993-5.

## Technical data

| Density (20°C) | pH-value     |
|----------------|--------------|
| 1,13 kg / l    | 2,8 ; 10 g/l |

## Biocide

Use biocide products with care. Always read the label and product information before use.

Notified according to national legislation for biocides under No. N-20151.

100 g product contains 10.0 g peracetic acid

Maximum usability from manufacture: 15 months in the closed original container.

Lizerna Sept is listed in combination with BÜFA Element A as a 60°C disinfection washing process at the IHO:

1.25 ml/l BÜFA Element A and 2.25 ml/l Lizerna Sept

10 min exposure time, liquor ratio 1:4

Bacteridal, yeasticidal, virucidal, fungicidal, tuberculocidal and mycobactericidal effective

Lizerna Sept is listed in combination with Ozerna Diamond as a 60°C disinfection washing process at the RKI:

0.5 ml/l Ozerna Diamond and 3 ml/l Lizerna Sept

10 min exposure time, liquor ratio 1:4, range of action A and B

Bacteridal, yeasticidal, virucidal, fungicidal, tuberculocidal and mycobactericidal effective
