

# Spezial OSM

## Acidic foam cleaner

### Properties

- Very good fat dissolving
- Removes mineral deposits
- Very good for use with high water hardness

### Application

Spezial OSM is a pH-acidic foam cleaner based on organic and mineral acids for use in the food and beverage industry and commercial kitchens. It is used to clean acid-resistant surfaces such as equipment, containers, tanks, aggregates and racks made of stainless steel to prevent the continuous build-up of water-hardened soiling on surfaces. Using a suitable foaming system, a stable, well-adhering foam is achieved with 4 to 6 bar air outlet pressure.

Application recommendation:

1. Rough dirt removal

### Technical data

Density (20°C)	pH-value
1,10	1,7 ; 1 %

### Titration

Prepare 10 ml application solution, fill up with approx. 100 ml distilled water. Titrate with 0.1 N sodium hydroxide solution against the indicator phenolphthalein.

Consumption (ml) x 0.33 = concentration in %

### Notes

Store the product only in the original container and frost-free.

Direct sunlight should be avoided.

After removing partial quantities, the container should be resealed.
