

Entschäumer EZ Superkonz.

Neutral defoamer emulsion

Properties

- Prevents annoying foaming
- Highly concentrated setting, therefore very economical
- Can be used in HD/HW and spray extraction devices
- Particularly suitable for brush washing systems with water recovery

Application

The product Entschäumer EZ Superkonz. is used to prevent annoying foam formation in automatic vehicle washing systems with water recovery, in floor cleaning machines with dirty water tanks and other machines that generate a lot of foam, such as high-pressure

Technical data

Density (20°C)	pH-value
1,00	7,0

Notes

Only store the product in the original container and in a frost-free place.

Direct sunlight should be avoided.

After removing partial quantities, the container should be resealed.

The surfactants contained in the product meet the conditions regarding biodegradability as specified in Regulation EC 648/2004 for detergents. The product does not contain any organic complexing agents that are not sufficiently biodegradable, e.g. EDTA (according to Annex 49 of the Waste Water Ordinance).

Due to the formulation components used, no organically bound halogen compounds (AOX) are contained as active substances.
