Status: 11/5/2026

BÜFA Element K

Complexing agent concentrate

Properties

- improvement of water quality; especially for BÜFA Elements
- bleach stabilization
- masking of heavy metals prevents the formation of catalyst damage
- prevention of deposits on the textile

Application

BÜFA Elements is a modular detergent system. Use the individual components of the modular system precisely according to your needs. Depending on your requirements, you can dose individual detergents and additives as needed for your process. This gives you the opportunity to achieve optimum washing results with as few chemicals as possible - applied precisely.

BÜFA Elements can be used for all types of laundry and stains. The high-quality and perfectly matched products are guaranteed to give you optimum washing results and preserve the value of your laundry.
