

Omnia Brillant

Care oil

Properties

- easy-to-handle
- ready-to-use
- restores the original shine

Application

Omnia Brillant is a ready-to-use product for the care of stainless steel surfaces in food processing companies. It restores the original shine to cleaned and disinfected surfaces. Water streaks or stains, tarnish and fingerprints are easily and quickly removed by applying Omnia Brillant. Omnia Brillant has been developed for cleaning and maintaining stainless steel surfaces in commercial kitchens and food processing businesses. The special white oils contained in the product are substances that can be used as consumables for the lubrication and care of food processing machines. Omnia Brillant is applied as a concentrate to surfaces that have been dried after cleaning and disinfection. If necessary, polish with a soft cloth or pad to remove stains, tarnish and fingerprints.
