

## Oldomat OC

### Glass washing detergent

#### Properties

- chlorine-free
- alkaline
- for all degrees of water hardnesses

#### Application

Oldomat OC is an alkaline, non-foaming liquid concentrate with very good dirt-dissolving properties. Due to the addition of water hardness-binding substances, it can be used in process water with low water hardness as well as in water with a higher degree of hardness. Oldomat OC is suitable in the usual application concentrations for use in glasswashers and wash ware made of stainless steel, plastics, porcelain, glass and aluminum. Due to the absence of active chlorine-containing compounds in the product, Oldomat OC does not contribute to the formation of AOX in waste water. Depending on water hardness and degree of soiling, Oldomat OC is used in commercial dishwashers in industrial kitchens and for cleaning crates, containers and parts in continuous flow systems in food processing companies.

#### Dosing

##### Dishwashers

|               |  |
|---------------|--|
| Concentration | 2 bis 8 g / l water  |
| Temperature   | gemäß Maschinentakt  |
| Exposure time | gemäß Maschinentakt  |
| Addition      | Oldomat OC is suitable for use in glasswashers and for items made of stainless steel, plastics, porcelain, glass and aluminum in the usual application concentrations. |

##### Crate washers / continuous flow systems

|               |  |
|---------------|--|
| Concentration | 0,5 - 2,0 %  |
| Temperature   | gemäß Maschinentakt  |
| Exposure time | gemäß Maschinentakt  |
| Addition      | Oldomat OC is suitable for use in glasswashers and for items made of stainless steel, plastics, porcelain, glass and aluminum in the usual application concentrations. |

#### Technical data

| Density (20°C) | pH-value   |
|----------------|------------|
| 1,38 kg / l    | 12,0 ; 1 % |

#### Titration

Prepare 10 ml application solution, fill up with approx. 100 ml distilled water. Titrate with 0.1 N hydrochloric acid against the indicator phenolphthalein.

Consumption (ml) x 0.44 = concentration in %

## Notes

### Storage:

Store the product only in the original container and frost-free.

Direct sunlight should be avoided.

After removing partial quantities, the container should be resealed.
