

# Detafix-Blotol

## Protein remover

### Properties

- easy to use in the pre-spotting in water
- applicable in post spotting
- mild formulation that is gentle on color and fabric
- suitable against blood and protein

### Application

All products of the Detafix series are universally applicable in pre- and post-spotting. These are highly effective products, before their application on sensitive garments and on textiles with low color fastness, a hem test is required.

Detafix BIParts treated with the Detafix series products in the pre-spotting should be cleaned in the machine no later than 30 minutes after treatment.

#### Post-spotting

In the post-spotting, the Detafix series products are allowed to act on the stain and the

### Technical data

Density (20°C)	pH-value
1,01 kg / l	10,5 - 11,5

### Notes

Storage should be frost-proof, although the solidified products can be used again after thawing without any loss of quality.
