

# Maschinenreiniger MAR-BC-ROT

Alkaline basic cleaner concentrate

## Properties

- Fast and powerful effect
- Removes particularly oily and greasy incrustations
- Especially for manual applications
- for cleaning and maintaining all types of machinery

## Application

Maschinenreiniger MAR-BC-ROT is an alkali-reinforced cleaner concentrate for basic cleaning and ongoing maintenance cleaning and care of all types of machine tools, textile machines and machinery. In addition to cleaning machines and systems, MAR-BC-ROT can be applied manually, after a short exposure time the dissolved dirt is thoroughly washed off with the cleaning solution or removed with cleaning wool or a cloth and then rubbed dry. Do not allow any cleaning agent to get into the coolant. When using for the first time, carry out a test application on a concealed area to check the compatibility of the material. When pre-diluting, follow the instructions of the appliance manufacturer.

In the case of extreme soiling, the product can be used pure or diluted up to 1:5 with water.

## Dosing

### Maintenance cleaning

Concentration	1:10 to 1:30 in proportion with water
---------------	---------------------------------------

### Technical data

Density (20°C)	pH-value
1,02 kg / l	10,5 - 11,5 ; 1 %

## Notes

Only store the product in the original container and in a frost-free place.  
Direct sunlight should be avoided.

After removing partial quantities, the container should be resealed.

The surfactants contained in the product meet the conditions regarding biodegradability as specified in Regulation EC 648/2004 for detergents.

The product does not contain any organic complexing agents that are not sufficiently biodegradable, e.g. EDTA (according to Annex 49 of the Waste Water Ordinance).

Due to the formulation components used, no organically bound halogen compounds (AOX) are contained as active substances.
