

Neutral LF

Neutral cleaning concentrate

Properties

- good grease and dirt dissolving capacity
- low-foaming, material-friendly ingredients
- universally applicable concentrate
- for basic and maintenance cleaning

Application

Neutral LF is a neutral concentrate that enables particularly gentle cleaning. Selected surfactant ingredients ensure particularly gentle cleaning with good grease and dirt dissolving properties. Neutral LF can be used in all areas for basic and maintenance cleaning of all damp wipeable surfaces. It is particularly suitable for cleaning and degreasing painted parts, porcelain, tiles, tiles, windows and floors. Neutral LF is also ideal for cleaning processes where excessive foaming is undesirable.

Neutral LF can be used with cold water, but the use of warm water significantly improves the cleaning result. When used in food processing plants, rinse with fresh water after cleaning to remove product residues from cleaned surfaces.

Dosing

Maintenance cleaning

Concentration 0,1 - 1,0 %

Basic cleaning

Concentration 1,0 - 10 %

Technical data

Density (20°C)	pH-value
1,00 kg / l	8

Notes

Storage:

Store the product only in the original container and in a frost-free place between +5 and +40°C. Avoid direct sunlight. After removing partial quantities, please reseal the container tightly.
