Status: 11/13/2026

# BÜFA Element T

## Surfactant concentrate

## Properties

- high emulsifying and dispersing properties in the BÜFA Elements system
- already suitable from 30°C for the optimal removal of special soiling
- perfect wetting agent
- pH value independent

### Application

BÜFA Elements is a modular detergent system. Use the individual components of the modular system precisely according to your needs. Depending on your requirements, you can dose individual detergents and additives as needed for your process. This gives you the opportunity to achieve optimum washing results with as few chemicals as possible - applied precisely.

BÜFA Elements can be used for all types of laundry and stains. Thanks to the high-quality and perfectly coordinated products, you are guaranteed to achieve optimum washing results and maintain the value of the laundry.

BÜFA Element T can also be used as a wetting agent (0.2 - 0.5 ml / kg dry laundry).

### Dosing

| As a grease remover and washing power booster | |
|---|---|
| Concentration | 1 - 2 ml / kg dry wash |

| As an emulsifier for heavily pigmented laundry | |
|---|---|
| Concentration | 3 - 5 ml / kg dry wash |

### Technical data

| Density (20°C) | pH-value |
|---|---|
| 1,02 kg / l | 7,00 |

### Notes

Store the product only in the original container and frost-free.
After removing partial quantities, the container should be resealed.
