EU-Ecolabel listed

Application

Ozerna Bright Green is an alkaline single-purpose detergent with optical brightener and pronounced grease and protein dissolving power. Based on an active ingredient mixture that consists exclusively of natural, renewable raw materials, cleaning results are achieved that were previously only possible with conventional alkaline detergents.

Ozerna Bright Green already emulsifies dirt quickly. Thanks to its special surfactant combinations, Ozerna Bright Green ensures a high level of dirt removal even in the case of unfavorable water quality. The applicable dosage recommendations and washing instructions for fulfilling the environmental criteria when using Ozerna Bright Green as a sole detergent can be found in the dosage table.

Dosing	Degree of contamination		
Water hardness	light	middle	heavy
0 - 8.4	4	5	8
8.5 - 14	5	6	9
> 14	7	9	10

The application quantity refers to g / kg dry laundry.
You can find out the degree of hardness or water hardness in degrees of German hardness from your local water company.
