

Lizerna MT

Special fat remover

Properties

- special grease-dissolving formulation for heavily soiled workwear
- particularly effective at high temperatures
- versatile use as an emulsifier, wetting agent and washing power booster in all washing systems
- enables cost savings in energy and time

Application

Lizerna MT is a highly efficient grease solvent that removes a wide range of stains, especially at high temperatures. Lizerna MT is particularly suitable for heavily soiled workwear.

The product can be added manually or via laundry-typical liquid dosing systems. It is suitable for both pre-washing and, in the case of extreme soiling, as an additive in the main wash.

The recommended dosage depends on the application. When used as a grease solvent or detergency booster, the dosage table below should be observed.

As a wetting agent, the product is dosed at 0.2-1.0 g / kg dry wash and as an emulsifier for heavily pigment-contaminated laundry at 6-15 g / kg dry wash.

Dosing	Degree of contamination		
	light	middle	heavy
Water hardness			
0 - 8.4	10	12	15
8.5 - 14	12	15	18
> 14	15	18	20

The application quantity refers to g / kg dry laundry.

You can find out the degree of hardness or water hardness in degrees of German hardness from your local water company.

Technical data

Density (20°C)	pH-value
0,97 kg / l	7,5

Notes

Store the product only in its original container and keep it frost-free.
