

Lizerna MT

Special fat solvent

Properties

- Special grease-dissolving formulation for heavily soiled workwear
- Particularly effective at high temperatures
- Versatile use as an emulsifier, wetting agent and washing power booster in all washing systems
- enables cost savings in energy and time

Application

Lizerna MT is a highly efficient degreaser that removes a wide range of stains, especially at high temperatures. Lizerna MT is particularly suitable for heavily soiled workwear.

The product can be added manually or via typical laundry liquid dosing systems. It is suitable both for pre-washing and as an additive in the main wash in the case of extreme soiling.

The recommended dosage depends on the application. When using as a fat solvent or washing power booster, please refer to the dosing table below.

As a wetting agent, the product is dosed at 0.2-1.0 g / kg dry wash and as an emulsifier for heavily pigmented laundry at 6-15 g / kg dry wash.

Dosing	Degree of contamination		
	Water hardness	light	heavy
0 - 8.4	10	15	
8.5 - 14		18	

The application quantity refers to g / kg dry laundry.
You can find out the degree of hardness or water hardness in degrees of German hardness from your local water company.

Technical data

Density (20°C)	pH-value
0,97 kg / l	7,5

Notes

Store the product only in the original container and frost-free.
