

# Sibin Konz

## Cleaning additive

### Properties

- Cleaning-enhancing
- Water hardness binding
- alkali-resistant
- Suitable as an additive for alkaline cleaning solutions

### Application

Sibin Conc. is an acidic liquid concentrate with a high proportion of sequestering organophosphoric acids. The cleaning power of caustic soda or caustic alkali-based detergents is significantly increased by adding Sibin Conc., the dirt-carrying capacity iCleaning solution. In problematic cases, increase to 1 % (with a minimum concentration of caustic alkalis of 2 %). After using Sibin Konz. in food processing plants, rinse with fresh water to remove all product residues from the treated surface.

### Technical data

Density (20°C)	pH-value
1,08	2,00 - 3,00 ; 1 %

### Titration

Prepare 10 ml application solution and titrate with 0.1 N hydrochloric acid against the indicator phenolphthalein.

Consumption (ml) x 0.33 = concentration in %

### Notes

Store the product only in the original container and frost-free.  
Direct sunlight should be avoided.  
After removing partial quantities, the container should be resealed.
